

Professional practices information 2020.03.20.

Szakmai gyakorlat leállítása

professional practices

Dear Student,

We would like to inform you about **the attitude of the Operational Crew of PTE in respect to Decree 3/2020. (III.16)**. According to the previously mentioned Decree the Operational Crew of PTE suspends all activity in relation with professional practices in the professional practice institutions of the University and in other partner institutions which participate in senior student's professional practice from 13 March 2020 until the state of emergency is over.

The Operational Crew of PTE according to the above mentioned statement suspends professional practices at all professional practice institutions and partner institutions **not for the formerly determined 2 weeks, but until the state of emergency is over.**

According to the above mentioned statement of the Operational Crew of PTE in relation with all trainings there is a general prohibition until the state of emergency is over, however the attitude of the Operational Crew of PTE to the Decree 22/2020. (III. 16.) allows the participation in professional practices only - in parallel collation with the institutions which provide professional practice and with partner institutions - in online. Considering the special nature of our trainings, this opportunity is open for few trainings, which were primarily pedagogical related trainings. The collation with our partner institutions have started, we will inform the concerned students directly about the decisions.

Thank you for your understanding and cooperation in advance!

Yours sincerely

Dr. István ÁGOSTON

assistant professor, vice- Dean
