

The University of Pécs Faculty of Health Sciences calls for applications for participating in the Pannónia Scholarship Program Student Mobility for Traineeship for the spring semester of the 2025/2026 academic year

The object of the call for applications:

The purpose of the call is to offer traineeships at companies or organizations in another program country, lasting a minimum of 2 and a maximum of 4 months. The aim is to assist in acquiring the skills necessary in the community labour market and to understand the economic and social culture of the host country. The host enterprise can be active in the labour market or in the fields of education, training, or youth, with the exception of National Offices and EU bodies.

Within the framework of the Pannónia Scholarship Program, successful applicants have the opportunity to complete traineeships at universities, professional organizations, and non-profit organizations in the program country. The aim of the mobility can be a traineeship combined with specialized studies. Mobility can only take place if the credits obtained during the foreign traineeship are accepted by the sending institution and are credited to the student's progress at home (with the PTE credit system) and /or a Diploma Supplement is issued.

The credit acquisition and recognition process must be recorded in the mobility agreement of the student participating in the mobility.

Students participating in the Pannónia Scholarship Program abroad also enrol at home, establish an active student status, pay their tuition fees at home, and receive their regular scholarship during their stay abroad.

Duration of traineeship mobility abroad: minimum 2 months (62 days) - maximum 4 months (120 days)

Period of mobility: 01/06/2026- 30/09/2026

Currency of the scholarship: HUF

Scholarship disbursement: 90% pre-financing – 10% post-financing

Working hours: minimum 30 working hours/week.

Pannónia Scholarship Program trainees being abroad:

- spend 2-4 months abroad (min. 62 days)
- **enrol at the home university, establish an active student status, pay any applicable tuition fees to their home university**, and receive their grants for the period of being abroad.
- **do not obtain their degree and maintain an active student status before ending the mobility.**
- 100% credit recognition (credits earned abroad are 100% accepted by PTE)
- **compulsory traineeships** (embedded in the curriculum) **are preferred**
- In the case of a traineeship, the Faculty guarantees the recognition of credits earned abroad for students: the activities carried out by the student during the traineeship must be accepted by the sending institution, as the requirement of recognition as part of the studies also applies to traineeships
- **The conclusion of the Support Agreement is only possible if there is a Learning Agreement signed by all three parties.** Completion and compliance with the courses agreed in the Learning Agreement is binding for both the

student and the institutions. Fulfillment and recognition as agreed in the Learning Agreement are binding for both the student and the institutions.

We would like to draw your attention to the fact that mobility cannot be started without a signed and faculty-approved Learning Agreement, the decision of the Faculty International Committee, and the signed grant agreement. The university will not transfer funds after the start date of the mobility if the above-mentioned conditions are not met.
