

Physiotherapy BSc

Thesis Topics	supervisor
1. Rehabilitation of musculoskeletal pathologies in pediatrics	Czakó Dorina
2. Rehabilitaiton of complex pathologies in pediatrics	Czakó Dorina
3. Development neurology	Czakó Dorina
4. Pre- and rehabilitation of youth athletes	Czakó Dorina
5. Women's health and physical activity	Dr. Hock Márta
6. Effect of lifestyle factors on pelvic muscle strength	Dr. Hock Márta
7. Application of relaxation methods in different clinical areas	Dr. Hock Márta
8. Physiotherapeutic treatment options for changes in condition during pregnancy	Dr. Hock Márta
9. Urinary problems and quality of life during postpartal period	Dr. Hock Márta
10. Prevention and physiotherapeutic options in old age, the role of physical activity	Dr. Hock Márta
11. The role and possibilities of physiotherapy in Pulmonology patient care	Dr. Hock Márta
12. Validity and reliability testing of different physical activity and sedentary behavior questionnaires	Dr. Makai Alexandra
13. Physical activity in association of socio-demographic parameters	Dr. Makai Alexandra
14. Physical activity and literacy among children	Dr. Makai Alexandra
15. Physical activity and literacy among different adult population	Dr. Makai Alexandra
16. Examination of the health-related quality of life	Dr. Makai Alexandra
17. Options for sports injury prevention	Király Bence
18. Application of post-injury rehabilitation procedures	Király Bence
19. Possibilities of joint range of motion development	Király Bence
20. Long-term effects of different types of muscle activity on joint stability and range of motion	Király Bence
21. A modern movement therapy approach to the treatment of low back pain	Király Bence
22. Impact of long-term movement prohibition on people with low back pain	Király Bence
23. Examination of the quality of movement patterns in different sports.	Nagy Dóra
24. Performance diagnostics in sports	Nagy Dóra
25. Motor skills development.	Nagy Dóra
26. Manifestations of coordination in different sports	Nagy Dóra
27. Relationships between performance and movement patterns and sport-specific techniques	Nagy Dóra
28. Influence of psychosocial and lifestyle factors on course and outcome measures of IVF	Prémusz Viktória
29. Effect of habitual physical activity and special interventions on key stages of female reproduction	Prémusz Viktória
30. Physical activity and women's health	Prémusz Viktória
31. Social determinants of health status, physical activity and physical literacy	Prémusz Viktória
32. Instrumental and survey-based monitoring of physical activity at the population level and for special groups	Prémusz Viktória
33. Implementation of behaviour change theories and techniques to encourage the development and internalization of active lifestyle	Prémusz Viktória
34. Pediatrics physiotherapy	Szücs Réka Laura
35. Postute examination	Szücs Réka Laura
36. Obstetrics-gynaceology physitherapy	Szücs Réka Laura
37. Orthopaedics physiotherapy	Szücs Réka Laura
38. Neurology physiotherapy	Szücs Réka Laura
39. Traumatology physiotherapy	Szücs Réka Laura
40. Physiotherapeutic treatment of rheumatologic diseases	Tardi Péter
41. Rehabilitation of musculoskeletal diseases	Tardi Péter
42. Patient education and disease-specific knowledge improvement in modern patient care	Tardi Péter
43. Physiotherapeutic treatment of degenerative diseases	Tardi Péter
44. Prevention and rehabilitation of sport injuries	Tardi Péter
45. Neurologic rehabilitation	Telek Laura
46. Electrotherapy	Telek Laura
47. Sport injuries, sport rehabilitation	Telek Laura
48. Rehabilitation after amputation	Telek Laura
49. Gerontologic diseases and their physiotherapeutic treatment	Telek Laura
50. Cardiologic prevention and rehabilitation	Tumpek Nikolett
51. Technical rehabilitation	Tumpek Nikolett
52. Posture assessment	Tumpek Nikolett
53. Physical activity and quality of life	Tumpek Nikolett
54. Prevention and rehabilitation in sport	Tumpek Nikolett
