

Physiotherapy BSc**Thesis Topic****Supervisor**

1. Women's health and physical activity	Dr. Hock Márta
2. Effect of lifestyle factors on pelvic muscle strength	Dr. Hock Márta
3. Application of relaxation methods in different clinical areas	Dr. Hock Márta
4. Physiotherapeutic treatment options for changes in condition during pregnancy	Dr. Hock Márta
5. Urinary problems and quality of life during postpartal period	Dr. Hock Márta
6. Prevention and physiotherapeutic options in old age, the role of physical activity	Dr. Hock Márta
7. The role and possibilities of physiotherapy in Pulmonology patient care	Dr. Hock Márta
8. Validity and reliability testing of different physical activity and sedentary behavior questionnaires	Dr. Makai Alexandra
9. Physical activity in association of socio-demographic parameters	Dr. Makai Alexandra
10. Physical activity and literacy among children	Dr. Makai Alexandra
11. Physical activity and literacy among different adult population	Dr. Makai Alexandra
12. Examination of the health-related quality of life	Dr. Makai Alexandra
13. Examination of the quality of movement patterns in different sports.	Nagy Dóra
14. Performance diagnostics in sports	Nagy Dóra
15. Motor skills development.	Nagy Dóra
16. Manifestations of coordination in different sports	Nagy Dóra
17. Relationships between performance and movement patterns and sport-specific techniques	Nagy Dóra
18. Influence of psychosocial and lifestyle factors on course and outcome measures of IVF	Dr. Prémusz Viktória
19. Effect of habitual physical activity and special interventions on key stages of female reproduction	Dr. Prémusz Viktória
20. Physical activity and women's health	Dr. Prémusz Viktória
21. Social determinants of health status, physical activity and physical literacy	Dr. Prémusz Viktória
22. Instrumental and survey-based monitoring of physical activity at the population level and for special groups	Dr. Prémusz Viktória
23. Implementation of behaviour change theories and techniques to encourage the development and internalization of active lifestyle	Dr. Prémusz Viktória
24. Physiotherapeutic treatment of rheumatologic diseases	Tardi Péter
25. Rehabilitation of musculoskeletal diseases	Tardi Péter
26. Patient education and disease-specific knowledge improvement in modern patient care	Tardi Péter
27. Physiotherapeutic treatment of degenerative diseases	Tardi Péter
28. Prevention and rehabilitation of sport injuries	Tardi Péter
29. Physiotherapy treatment options for traumatology diseases	Kovács-Szabó Zsófia
30. Physiotherapy treatment of gynecological diseases (endometriosis)	Kovács-Szabó Zsófia
31. Physiotherapy treatment options for orthopaedic diseases	Kovács-Szabó Zsófia
32. Physiotherapy treatment options for geriatric diseases	Kovács-Szabó Zsófia
33. Disease-specific assessment and patient education.	Bogdán Kinga
34. Examination of physical activity and quality of life	Bogdán Kinga
35. Posture tests	Bogdán Kinga
36. Electrotherapy	Bogdán Kinga
37. Geriatric diseases and their treatment	Bogdán Kinga
38. Physiotherapy of pulmonological pathologies	Bogdán Kinga
39. Women's health and physical activity	Dózsa-Juhász Olívia
40. The relationship between the issue of menstruation and physical activity	Dózsa-Juhász Olívia
41. Physiotherapy options in obstetrics and gynecology	Dózsa-Juhász Olívia
42. Developmental Neurology	Dózsa-Juhász Olívia
43. Children's spine school programs	Dózsa-Juhász Olívia
44. Examination of the reliability and validity of physical activity and sedentary lifestyle questionnaires	Dózsa-Juhász Olívia
45. Examination of physical activity in the light of social factors	Dózsa-Juhász Olívia
46. Examination of children's physical activity and their knowledge of exercise	Dózsa-Juhász Olívia
47. Physiotherapy of children and infant diseases	Dózsa-Juhász Olívia
48. Posture tests	Dózsa-Juhász Olívia
49. Electrotherapy	Dózsa-Juhász Olívia
50. The relationship between menstrual hygiene and diseases affecting menstruation	Dózsa-Juhász Olívia
51. The relationship between workplace well-being, quality of life, stress, mental state and physical activity	Dózsa-Juhász Olívia
